Subject: IARC process

Attachments: blair March 2013 AHS Draft.pdf; blair February 2013 AHS Draft.pdf

Dr. Cogliano,

Pat Rizzuto sent me your contact information. She told me you worked in the monograph program at IARC before coming back to EPA in 2011. I am trying to get a handle on whether Aaron Blair of the National Cancer Institute did something wrong in withholding unpublished data regarding the monograph on glyphosate. You may have read the Reuters story: <a href="http://www.cnbc.com/2017/06/14/reuters-america-special-report-cancer-agency-left-in-the-dark-over-glyphosate-evidence.html">http://www.cnbc.com/2017/06/14/reuters-america-special-report-cancer-agency-left-in-the-dark-over-glyphosate-evidence.html</a>

What are your thoughts? I have attached the 2013 study drafts to give you an idea of what was not submitted to IARC.

Many thanks,

**Tiffany**
